

grant CREATEROLE to vault

```
postgres=# ALTER USER vault with CREATEROLE;  
ALTER ROLE _
```

Setting up the tables in postgres for vault to write to

- `psql vault -U vault`

```
vault=> CREATE TABLE vault_kv_store (  
vault(> ^C  
vault=> CREATE TABLE vault_kv_store (  
vault(> parent_path TEXT COLLATE "C" NOT NULL,  
vault(> path TEXT COLLATE "C",  
vault(> key TEXT COLLATE "C",  
vault(> value BYTEA,  
vault(> CONSTRAINT pkey PRIMARY KEY (path, key)  
vault(> );  
CREATE TABLE  
vault=> CREATE INDEX parent_path_idx ON vault_kv_store (parent_path);  
CREATE INDEX
```
